
PROTECT YOUR HOME FROM BURGLARS BY PROTECTING YOUR GARDEN

Protecting your garden and outbuildings not only keeps bikes and other valuables in your shed safe, but can also stop burglars getting into your home.

RECOMMENDATIONS TO MAKE YOUR HOME MORE SECURE

1 Low front boundary

2 Secure side gate

3 High side and rear boundaries with trellis and spiky defensive planting

4 Gravel driveway and path

5 Security light

6 Intruder alarm system

7 Secure shed door and window

8 Never leave tools lying around

Stay secure in summer

Leaving ground floor windows, doors and patio doors open in the summer can give burglars the perfect opportunity. If you're upstairs or out of the room, even just for a few minutes, close them and help shut burglars out.

KEEP THEM OUT

- 1 Keep hedges and walls at the front of your house low (under 1 metre) so burglars have nowhere to hide.
- 2 Keep side gates locked at all times. Open gates mean burglars can easily access your home without being seen by passers-by or neighbours.
- 3 Keep hedges, walls and fences around your back garden high (over 1.8 metres). Add lightweight trellis to gates and fences and plant some prickly plants such as those on page 4 to make it harder for burglars to climb over.
- 4 Gravel driveways and paths make it harder for burglars to go undetected.
- 5 Install an outside security light so that intruders can't approach without being seen.
- 6 Install a burglar alarm system.
- 7 Always keep your shed locked and secured. Often sheds contain valuables such as power tools and bicycles.
- 8 Never leave tools lying around as they can be used as a way of breaking into your home.

EXTRA STEPS YOU CAN TAKE

- Consider buying a shed alarm. These are usually quite cheap but still effective.
- Add an extra layer of protection to shed windows with laminate sheets of film or internal metal grills.

CREATE A NATURAL DEFENCE AGAINST BURGLARY

Planting particular shrubs (in their mature or semi mature form) along garden walls and fences can make it harder for burglars to access your property or put them off completely. To maximise this effect plant them close to each other.

We recommend planting any of the following:

Berberis

Crataegus

Chaenomeles

Eleagnus

Ilex

Mahonia

Osmanthus

Pyracantha

Ribes

Robinia

Climbing roses

**Ligustrum
(privet),
or laurel**

**Forget
Poncirus**

Aralia

Oplopanax

Colletia

Maclura

**Smilax and
Xanthoxylum**

Live in a ground floor flat or share a communal garden?

You can still make use of these tips by planting in front of ground floor windows to prevent easy access.
